- Doesn't irritate the skin during extended period of wearing

MADE IN
EUROPE

three-layer
membrane

12-hour
wear

with flexible surgical
steel nose strip

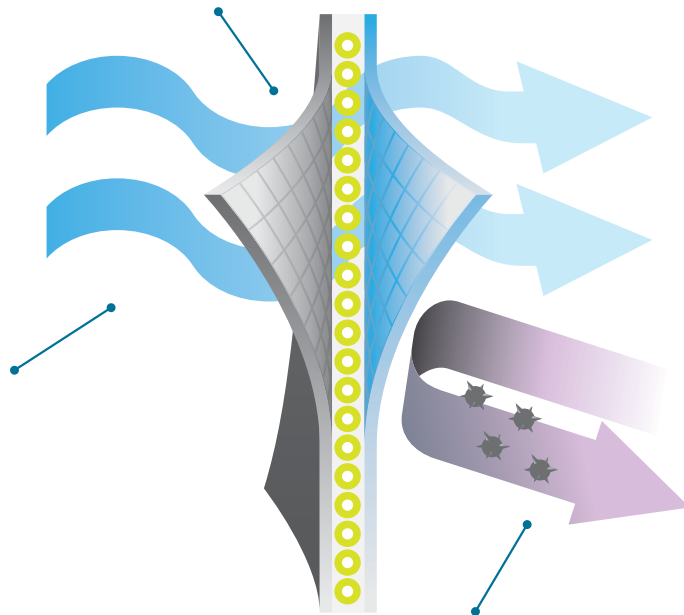

certified efficiency against

99,99%
of airborne particles
(higher efficiency
than standard FFP3)

RespiZorn

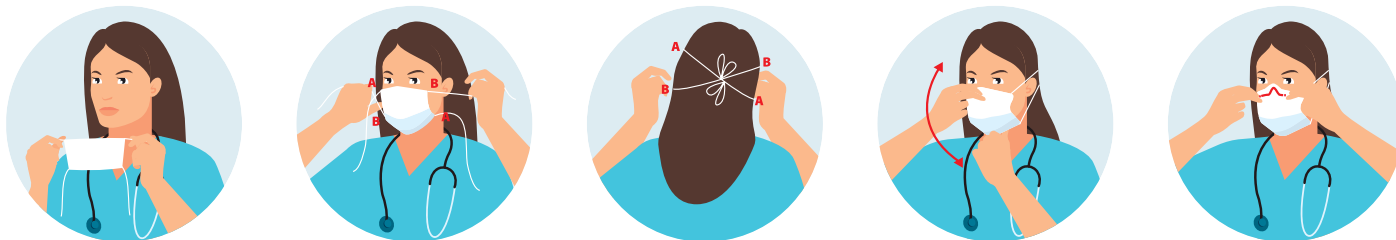

The outer and inner layers of pleasantly thin viscose meet the **strictest hygienic requirements** and are complemented by a middle nanomembrane that ensures **maximum filtration ability** and enhances the effectiveness of protection.

Breathable materials provide durability and **comfort during extended wearing and multiple uses.**

Thanks to the combination of materials this mechanical barrier protects from pathogens while still being highly breathable, offering **high comfort for its users.**
